

TOWN OF GANDER

RESIDENTIAL CLEAN-UP

The Town of Gander conducts residential clean-up events several times each year.

The residential clean-up system is as follows:

- Under this system, each street will be completed once during each week of the clean-up period.
- Clean-up refuse will be picked up on the day of your scheduled household garbage collection. Please do not put out refuse before or after the designated dates for the clean-up.
- Please sort refuse into **four separate piles** at curbside:
 - 1 - **Regular household/kitchen garbage and recyclables** in appropriate clear and blue bags.
 - 2 - **Garden waste** (trees, branches, leaves & grass); branches must be tied in bundles (max. 5-ft lengths), leaves & grass must be in clear bags only.
 - 3 - **Metals**, including large appliances made mostly of metal.
 - 4 - **All other refuse** including furniture and construction debris. All loose material (pieces of lumber, broken glass, gyproc, etc.) must be in appropriate containers (max. 50-lb per container, broken glass clearly marked).
- To have car wrecks removed, please call Central Metals (1983) Ltd. at 256-7780.
- Rocks, gravel or concrete will **not** be removed.
- Hazardous waste such as propane cylinders, paint, pesticides, oil, etc. will **not** be collected. Please contact the Norris Arm Regional Waste Management Facility at 653-2900 for further information.
- Tires will **not** be collected but should be recycled by returning to your usual tire retailer.

Year-round disposal services: Residents are reminded that the McCurdy Drive Waste Transfer Station accepts materials on selected Saturdays throughout the year. Metals may be dropped off at Central Metals (1983) Ltd. during normal business hours. Good used furniture will be collected by Evangel Pentecostal Church; call 256-4762 to arrange pick-up. Grass and leaves may be dropped at the community composting site on McCurdy Drive; trees and branches may be dropped at the chipping site adjacent to the Magee Road Treatment Plant. Computers and peripherals including printers and monitors, along with home or personal audio/video systems and non-cellular phones, may be dropped off at the Scotia Recycling Green Depot on Garrett Drive.

Please note: This clean-up event is for Town of Gander residents only; contractor-generated debris or refuse brought in from other communities will **not** be collected.

For complete Residential Cleanup Week Rules and Procedures in PDF format, the full text of current Garbage and Refuse Regulations, or Transfer Station schedule and rates, please visit the Town of Gander website at www.gandercanada.com or call the Public Works Depot at 651-5938.
