The ATV Sub Committee is recommending, to the Public Works and Services Committee, the removal of section 3-(c) of the All-Terrain Vehicle Bylaw.

This Committee recommends the following measures be taken, in this order, to ensure a smooth transition to this revision in the regulations:

2. Council revoke section 3-(c) of the All-Terrain Vehicle Bylaw which states:
“ Subject to subsection (2) a person may operate or otherwise move a vehicle upon a designated trail as per schedule 1, to this by-law and may take the most direct route to and from the trail providing all conditions of these regulations are met. “
3. Funding opportunities and partnerships to be explored for the expansion and upgrading of the trail circumventing the community, as indicated in drawing 16-1005.
4. Trail upgrading and expansion to continue as funds are made available.

The sole intent of the removal of Section 3 (c) of the All-Terrain Vehicle Bylaw is to eliminate the use of ATV/UTV, Snowmobiles, and Dirt Bikes in the developed area of town including all Town streets and associated walkways.

This item is now presented to Council for the first reading. Anyone wishing to make changes or having objections to the proposed changes must do so in writing on or before **August 3, 2016**.

75 MacDonald Drive – Invoices

The Acting Director of Municipal Works reviewed invoices from the owner of 75 McDonald Drive who is requesting reimbursement for costs incurred to free a blocked sewer lateral which was later determined to be outside the property line.

When the Town was notified it was on Town Property, the Department took control of the site and all costs incurred from that point forward were invoiced to the Town of Gander.

The cost incurred by the home owner is showing an excessive amount for locating a sewer blockage in our opinion. Our current policy allows for repayment of costs to a maximum of \$250.

Motion #16-150

75 MacDonald Drive - Invoices

Moved by Councillor Anstey and seconded by Councillor Parrott that the owner of 75 Macdonald Drive be paid \$250 for costs incurred in repairing a sewer blockage.

The Committee agrees with the recommendation but feels that this has potential to be a wonderful recreation and tourism opportunity for the Town of Gander. The Director was asked to consider other opportunities where it can be discussed with other organizations. It was also suggested to consider this as an agenda item for a regional community meeting.

Dog Park

The Director advised that there has been a delay with the opening of the Dog Park which was previously scheduled for July 1. There was a delay in having the sod work completed and once the sods are laid, there is a two-week wait period. It is anticipated that it will be open by July 25th. The public will be notified as soon as it is ready for use.

This is being forwarded to the Engineering Committee for their consideration.

Land Request – 1 Mattern Place

A request was reviewed to purchase land behind 1 Mattern Place. There were two options presented and Committee feels that there may be implications for future green space and is not recommending selling this land. This is being forwarded to the Engineering Department for their consideration.

Requests for Meetings with Council

At its last meeting, the Committee asked staff to develop a standard protocol for managing requests to meet with Council or a sub-committee of Council. The CAO advised that the Rules of Procedure already addressed the process and that it needs to be followed more closely rather than redone. The Committee agrees with the existing Rules of Procedure and will be following it more closely. A copy of the Rules of Procedure document will be distributed to all of Council and Management and discussed at a joint Council/Management meeting.

Stop Work Authority

The CAO advised the Committee that as the community grows and invests in more infrastructure projects there is a greater risk of jobsite incidents relating to occupational health and safety.

Article 10 of the Occupational Health and Safety Act states that "A principal contractor engaged in a project shall ensure, where it is reasonably practicable for him or her to do so, that employers, workers and self-employed persons performing work in respect to that project comply with this act and its regulations."

In order to ensure safe work sites and reduce the liability for the Town, the CAO is recommending that Council use its authority under section 404 of the *Municipalities Act* and give the following staff positions the authority to issue a stop work order for work site hazards and safety issues:

- Occupational Health and Safety Advisor
- Director of Engineering
- Director of Public Works

- Supervisor of Technical Services
- Supervisor of Infrastructure and Planning

The Committee agrees with this recommendation.

The Director provided the property size, dimensions of the current accessory buildings, and the total percentage of lot coverage with the requested addition which would be approximately 11%.

The Committee had a lengthy discussion and considering the size of the existing accessory buildings and the lot size, the Committee is not in agreement with the request.

Second Quarter Financial Report

The Committee reviewed the financial report to the end of June 2016. Revenues to the end of June 2016 are \$6,912,873 which is \$106,000 under budget. Taxes are \$67,000 under budget, primarily because of adjustments arising out of appeals of the new assessments, as well as tax revenues being down from the local utilities.

Expenditures for the first six months of the year were \$6,831,586. This was \$188,000 under budget. This gives us a projected surplus of \$82,287 for 2016. Council is carrying forward a significant deficit from previous years and this will be applied to that deficit leaving us with a projected deficit of \$1,183,473. Council's long term plan is to recover this deficit over the next four years.

Major expenditure variances include the following:

- Wages are \$154,000 under budget due to a combination of not filling budgeted positions, as well as vacancies in positions which were not filled immediately.
- Equipment maintenance in the water system is \$36,400 over budget due to some unexpected equipment failures.
- There was a savings of \$37,400 on debt charges due to the interest rate on our capital borrowing being lower than budgeted.

The Committee also reviewed the capital budget for the first six months of 2016. It is projected that our capital spending for the year would be \$462,732 under budget, largely as a result of Council's decision to cancel two Capital Expenditure items.

Travel and Expenses Policy

The Committee reviewed the revised Travel and Expense Policy. The bulk of the Policy has not changed, however, there had been some minor changes recommended including the following:
